

SOUTHERN MARYLAND DENTAL SOCIETY *presents*

# BRUNCH & LEARN *with*

## Jeffery S. Nordin, D.D.S., MS

### WHAT'S NEW IN OPERATIVE DENTISTRY?

January 27, 2012

Silver Spring Crowne Plaza

8777 Georgia Avenue • Silver Spring, Maryland

**TIME:** Registration: 7:00am • Learning starts at 8:00am and ends at 2:00pm

6 Hours Clinical CE Credits • SPACE LIMITED to 200

**Course Summary:** *“What’s New in Operative Dentistry”* is designed to update the general practitioner in the clinical application of modern restorative materials, esthetic dentistry treatment considerations, and current caries prevention philosophies. Topics include caries risk assessment and preventive restorative treatment planning; periodontal restorative interrelationships; dental amalgam and mercury issues; restoration of endodontically treated teeth; dentinal bonding agents; tooth-colored restorative materials; anterior and posterior esthetic restorations; vital bleaching; and other restorative related issues. A preventive, conservative, and integrated disciplinary approach to restorative dentistry is stressed.

**Anticipated Learning Outcomes:** Participants should be able to: Discuss clinical caries management based on current preventive strategies. Discuss periodontal restorative interrelationships. Discuss the current status of dental amalgam and the controversy surrounding the use of mercury. Discuss the mechanics of resin dentin bonding. Explain clinical criteria for the selection and placement of posterior esthetic restorations. Describe the placement and finishing of anterior and posterior direct esthetic composite restorations. Describe the clinical techniques and selection of materials for placement of indirect veneers and posterior ceramic restorations. Describe the selection of materials and clinical techniques for vital bleaching. *Recommended for Dentists, Hygienists, Assistants*

**Dr. Nordin** is a Captain in the United States Navy and currently serves as the Navy Surgeon General’s Specialty Leader for Operative Dentistry. He is also the chair, Department of Operative Dentistry at the Naval Postgraduate Dental School in Bethesda, MD. He is a member of the Academy of Operative Dentistry; Board of Councilors for the American Board of Operative Dentistry; and the Editorial Board for the Operative Journal. He went on to complete a Master’s in Operative Dentistry and a certificate in Preventive Dentistry from the University of Iowa in 2000. He also received his Board certification from the American Board of Operative Dentistry in 2003.
