## President's Message

### Facebook Facelift

Dear Colleagues,

Spring is upon us! I hope you and your families are doing well, and ready to enjoy the (eventually) great weather.

During our last Executive Board Meeting (March 2019), we discussed SMDS' Facebook group. As a quick background, the "SMDS Dentists" Facebook group was created in early 2017 as a place for members to connect and communicate. It was exclusive to SMDS members, and each addition had to be approved by the group administrator.

Participation was OK, ranging from clinical questions to social events and CE course announcements. The group was not used to communicate advocacy or legislative items (that is reserved to our General Membership Meetings and email blasts).

As part of our effort to reach out to our non-member colleagues in the area and attract new members, the SMDS Executive Board felt that our Facebook group could be better utilized to achieve these goals. So "SMDS Dentists" Facebook group got a facelift! It is now called "DMV Dentists."

So far (only two weeks old), it has been a great success! We added over 200 new members and the group sprung back to life with active posts and discussions. It is now an even better place to post clinical questions and social events. Our CE course announcements have double the audience!

If you were a member of “SMDS Dentists,” you are automatically a member of “DMV Dentists.” It was just a name change. However, now you can invite your non-member friends to join (admin approval is still required.) So please invite your colleagues not only to join “DMV Dentists” Facebook group but also to join SMDS and be an active part of organized dentistry.

Sincerely,  
Yaser Roumani, DDS, MSD

The ORACLE is published eight times a year by the Southern Maryland Dental Society, 4920 Niagara Road, Suite 306, College Park MD and sent to all members of the Society.

The SMDS will publish signed articles relating to all phases of dentistry (space permitting), but assumes no responsibility for opinions expressed by the contributors.

Acceptance of advertising in no way constitutes professional approval or endorsement.

Deadlines for all materials is the 1st of the month preceding the issue. Publishing dates are September, October, November, December, January, February, March, May/June.

**Editors Letter**

Dear friends,

Did you know that a just one hour of moderate activity a week can decrease the risk of disability? A study from the Journal of Preventative Medicine found that those who exercised just one hour a week were more likely to be free of disability after four years.

We have a lot of hands-on continuing education courses planned this Spring and Summer. Sign up today before space runs out.

Registration for the next Dental Radiology courses is now open. The next course starts on June 3rd and registration form can be found on page page 13.

Just a friendly reminder that the DMV Oral Cancer Walk will be held on Saturday, April 27. Please find the flyer below with details on how to register.

If you have exciting news you want to share in the Oracle, please send me an email.

Cheers,

Halima Karim, DDS

**Dear SMDS Members,  
Dear Doctors,**

**There has been some confusion regarding an advertisement piece sent by DOCS education to our area dentists (see image below).**

**The mailer is designed to sell you CE courses without real clarification of the licensing requirements. More specifically, the advertisement creates confusion regarding the requirements for prescribing Valium (Diazepam) by licensed dentists. For example, the ad states that programs are available that meet the “requirements” for adult anxiolysis and moderate sedation.**

**Dr. Arthur Jee of the Maryland State Board of Dental Examiners has kindly reached out to us to make matters clear. Please see the Board’s message below.**

**Thank you  
Y Roumani DDS MSD  
President, SMDS**

Maryland Dental Regulation §10.44.12.08(D)(1) requires dentists to complete at least 24 hours of instructive classroom training with 20 clinical patient experiences and obtain a Class 1 permit before providing patients with moderate sedation using any oral sedative (incl. Valium).\*

Clinically-tested and up-to-date adult anxiolysis and moderate oral sedation training programs are being taught in **Washington, DC (May 17-19, 2019)** and **Memphis, TN (Aug. 16-18, 2019)** that each meet these requirements.

Special sessions regarding patient assessment, airway management, medical emergencies, anatomy, physiology, pharmacology, documentation, certification, monitoring, inventory, and dispensing of medications are also included.

These courses provide up to 25 hours of CE credits and may be used to fulfill CE requirements for license renewal. DOCS Education is an AGD PACE provider since 2000 [#217651].

\* Dentists in Maryland who provide oral moderate sedation without required training and a permit could incur fines and reprimands.

To receive sedation regulation alerts, visit [SedationRegulations.com/MD](http://SedationRegulations.com/MD)  
To register, visit [DOCSEducation.com/courses](http://DOCSEducation.com/courses) or call (877) 524-3636

This announcement is a service of DOCS Education

## **CLARIFICATION: MARYLAND ANESTHESIA AND SEDATION REQUIREMENTS**

**In the April 2019 edition of the Oracle, there were confusing statements regarding requirements for the use of anesthesia beyond local anesthesia. Please see the clarification below.**

- 1. All licensed dentists may use nitrous oxide without the need for an anesthesia permit.**
- 2. All dentists may practice "ANXIOLYSIS" without the need for an anesthesia permit. ANXIOLYSIS which is intended to decrease anxiety, includes a single dose of one sedative, narcotic, class of drugs, or medication prescribed by the treating dentist and taken the evening before the procedure or the morning of a procedure, or both. The use of the same drug or another drug is acceptable. However, it is one dose and one drug. For example, it can be a single dose of Valium (Diazepam) in evening and a single dose of Halcion (Triazolam) in morning. The one drug, one dose along with Nitrous Oxide is still 'Anxiolysis'.**
- 3. All dentists practicing "MODERATE" sedation are required to have a CLASS I Anesthesia permit. This is the use of more than one drug either in the evening or morning. For example, if Halcion and Valium (or narcotic or any other medication for sedation) are used together either in the evening or morning, or both in the evening and morning. IT IS MODERATE SEDATION!!!**
- 4. Requirements for obtaining a MODERATE Sedation permit are contained in the Board's statutes and regulations. The educational requirements are 24 hours of didactic and 20 hours of observation. In addition, there are other requirements. Please contact the Maryland State Board of Dental Examiners for further details.**

# Leadership Update

## Message from ADA's Executive Director Dr. O'Lough-

For the first time in 20 years, dentistry has a new specialty. Earlier this month, the National Commission on Recognition of Dental Specialties and Certifying Boards recognized dental anesthesiology as the 10th dental specialty.

The National Commission on Recognition of Dental Specialties and Certifying Boards is comprised of nine general dentists, appointed by the ADA Board of Trustees; one specialist from each of the nine recognized specialties, appointed by the sponsoring organization; and a public/consumer member appointed by the National Commission.

The ADA House of Delegates in 2017 established the National Commission to oversee the decision-making process for recognizing dental specialties. The "Requirements for Recognition of Dental Specialties" is still managed by the ADA's Council on Education and Licensure and the ADA House of Delegates.

Dental specialties are recognized "to protect the public, nurture the art and science of dentistry and improve the quality of care," according to the National Commission website. You can read more about this development in [ADA News](#).

A handwritten signature in black ink that reads 'Kathy'.

# THE SOUTHERN MARYLAND DENTAL SOCIETY PRESENTS

**1 Day  
Hands-on Course  
8 hours CE**

## Fun With Hands-on, In-Office 3D Printing and Orthodontic Aligners

### When:

Saturday

June 8, 2019

8:00 AM - 4:00 PM

**College Park, MD (near Washington, DC)**

4920 Niagara Road Suite 306, College Park, MD 20740

### Meet the Instructor:

**Usa Bunnag,  
DDS**

Dr. Bunnag is a general dentist with an extensive orthodontic

background in functional and fixed appliances (straight wire). She was an Invisalign and Clear Correct provider for more than 10 years before moving into the 3D printing arena. Dr. Bunnag is also an advanced Cerec user with more than 10 years of experience. Her passion for dentistry extends to her humanitarian work as well. In 2017, Dr. Bunnag became the first woman dentist to receive the American Dental Association Humanitarian of the Year Award for her extensive work with Smiles on Wings. Dr. Bunnag is the owner of two laser and digital practices in Bethesda and Silver Spring, Maryland.

### Course Objectives:

Learn how to use the software and hardware to design and fabricate clear orthodontic aligners to treat selected cases for a fraction of the cost of outsourcing to big-name companies. Have fun, save money, and have control of your cases. It's Gaming and fun With Digital Dentistry.

### Course outline:

- Introduction: Why 3D printing?
- Hardware, software, and teamwork necessary for success in 3D printing
- Case selection
- STL files for digital planning-Cerec Scan
- Aligning teeth: Software training: Archform
- How to align teeth efficiently
- Attachments and IPR
- Exporting models for 3D printing
- Options for outsourcing case designing

### Lunch

- 3D printing
- Software: Preform, Meshmixer
- Setting up models for 3D printing
- Files management
- In-office 3D printing-Moonray
- Clear aligner fabrication-Hands on with models
- Tips for successful delivery appointments
- Practice management

Knowledge of orthodontic principles is helpful. Bring a laptop with a three-button mouse. Dental assistants welcome.

**Registration:**

**301 345-4196**

# THE SOUTHERN MARYLAND DENTAL SOCIETY PRESENTS

**1 Day  
8 hours CE**

## Pediatric Mini-Residency - Part I

**When:**

**Saturday**

**June 15, 2019**

**8:00 AM - 4:00 PM**

**College Park, MD (near Washington, DC)**

4920 Niagara Road Suite 306, College Park, MD 20740

**Meet the Instructor:**

**Ed Ginsberg, DDS**

Dr. Ginsberg completed both his dental degree and his pediatric dental training at the University of Maryland.

He is the founding partner of

Smiles4children, an 8 dentist pediatric dental group practice with locations in Catonsville, Ellicott City, and Eldersburg.

He is a Diplomate of the American Board of Pediatric Dentistry, and a Fellow of the American College of Dentists, International College of Dentists, and the American Academy of Pediatric Dentistry.

A member of the medical staffs at Johns Hopkins, Sinai, and Kernan hospitals, Dr. Ginsberg is also a member of the Johns Hopkins Craniofacial team.

He has been a clinical assistant professor in the Department of pediatric dentistry at the University of Maryland since 1985.

Dr. Ginsberg is past president of the Maryland Academy of Pediatric Dentistry and the Maryland Society of Dentistry for Children. He currently serves as Chair of the Oral Clinical Examination of the American Board of Pediatric Dentistry and is also an examiner on the sedation committee for the Maryland State Board of Dental Examiners.

**Course Objectives:**

This 2 part course provides an expansive, contemporary, and in-depth summary of pediatric dentistry. Topics to be discussed include prevention, silver diamine fluoride (SDF), treatment planning, restorative dentistry and materials, space maintenance, pediatric dental emergencies and trauma, non-pharmacologic and pharmacologic behavior guidance and vital and non-vital pulp therapy.

The course curriculum is designed to serve as a in-depth review of pediatric dentistry for dentists hoping to gain greater competency in their treatment of pediatric patients.

At the conclusion of the course, participants will have gained a better understanding of major clinical areas of pediatric dentistry, current evidence-based treatment and will have expanded their general knowledge of pediatric dentistry.

**Tentative Schedule Part I**

07:30 - 08:00	Registration and breakfast
08:00 - 10:00	Pediatric Dental Emergencies/Trauma
10:00 - 10:15	Break
10:15 - 12:00	Non-Pharmacologic Behavior Guidance
12:00 - 1:00	Lunch
1:00 - 2:30	Restorative Dentistry
2:30 - 2:45	Break
2:45 - 4:00	Treatment Planning
4:00 - 4:30	Lecture/Wrap-up/Questions

**Tuition**

SMDS Members:	\$295	Non SMDS members:	\$395
Residents/Students:	\$95	Team member:	\$95

# The Southern Maryland Dental Society Presents

## Pediatric Tongue- and Lip-Ties and Laser Frenectomies

### 2 Days Hands-On Course 12 CEUs

#### When

Saturday & Sunday  
December 7-8, 2019  
8:00 AM - 4:00 PM

#### Where

4920 Niagara Rd, Suite 306  
College Park, MD 20740

#### Meet the Instructor

#### Martin Kaplan DMD, DABLS

Dr. Kaplan has been an early adopter of laser dentistry since 2004. He has lectured nationally and internationally, has co-authored several articles and was a contributing

author of the unique, first of its kind, Color Atlas of Infant Tongue-Tie and Lip-Tie Laser Frenectomy. Dr. Kaplan is a Member at the American Laser Study Club, a Diplomate of the American Board of Laser Surgery (ABLS) and the director of Dental Laser Education and Development for the ABLS.

Breakfast, Lunch, Afternoon snack, hot and cold beverages will be provided.

#### Tuition

SMDS Members: \$695      Residents: \$495  
Non-SMDS Members: \$825      Staff/IBCLC: \$330

#### Registration

Call  
(301) 345-4196

Email  
Valerie@smdsdentists.org

**Introduction:** Enhance your understanding of the issues of pediatric laser dentistry, including tongue-ties and lip-ties! As many as 5 percent of all babies born in the US have tongue-ties significant enough to cause breastfeeding difficulties. Affected babies often fail to thrive and can be erroneously labeled as "lazy nursers" or "stubborn feeders".

A good surgical laser for cutting soft tissue must be able to vaporize soft tissue, while at the same time efficiently coagulating surgical margins. Not all laser wavelengths are suitable to comply with both requirements. This course focuses on the practical aspects of soft tissue laser surgery and on the fundamental processes involved in the laser-tissue interaction; it helps attendees learn how deep the laser beam cuts and how deep the coagulation and hemostasis extend into the surgical margins. Our **hands-on participation lab** is designed to train attendees on what surgical lasers can do safely and efficiently.

#### Clinical Curriculum:

- Demonstrate a wide range of didactic and clinical tools for the use of lasers in pediatric dentistry
- Present basic knowledge about Dental lasers adhering to the established standards of education
- Instruct Dentists, Lactation Consultants, Speech and Language Therapists, and other allied health care providers to understand the efficient and safe application of laser energy in everyday practice
- Provide sound scientific basis and proven efficacy of use of lasers in Dentistry in order to ensure public safety
- Explore current methods of clinical assessment, diagnosis and treatment of lingual and labial ties  
Attendees will be able to:
  - Understand infant sucking physiology and how tongue ties impair infant suck;
  - Use reliable diagnostic criteria to screen babies for this condition; and
  - Understand all consequences and benefits of using lasers to remove oral restrictions
- Through participation in a hands-on workshop, the course attendees will learn to remove oral restrictions using soft-tissue lasers
- Explore current methods of identification of TOTS for diagnosis, treatment, and management
- Demonstrate two different practice models to integrate TOTS therapy into various practice settings

#### Laser Curriculum:

Laser Surgery and Safety Basic Knowledge Certification Curriculum for this Course has been developed by the American Laser Study Club (ALSC). The ALSC's curriculum overcomes the known limitations of many laser dentistry courses, and includes the detailed physics of soft tissue ablation and coagulation with laser and hot tip (non-laser) devices. Laser hands-on wetlab on tissue samples will include different laser wavelengths and will include laser safety instructions and demonstrations. Laser instructions will be assisted by guest speaker Peter Vitruk, PhD, MInstP, CPhys, DABLS, a laser physicist who founded the American Laser Study Club and LightScalpel LLC.

#### Hands-On Participation Session:

2 HOURS

- Laser Safety
- Laser Surgical Technique Simulations
- Superficial Ablation
- Superficial Coagulation
- Shallow Incision
- Deep Incisions
- Practicing Surgical Techniques on a Pig Jaw

**Course Certificates:** Course participants, who successfully complete examination, will be awarded a **LASER SAFETY basic knowledge CERTIFICATE** from the Board of Laser Safety of the Laser Institute of America (**DISCOUNTED** cost for the ALSC members), as well as a **Laser Dentistry and Laser Surgery Basic Knowledge and Hands-On participation Wetlab CERTIFICATE** from the American Laser Study Club (**FREE** for the course participants).

**About the ALSC:** American Laser Study Club (ALSC - www.AmericanLaserStudyClub.com) was founded to promote science-based laser dentistry, surgery and safety education. The ALSC is proud of its curriculum and its distinguished membership, including our honorary members **Gordon J. Christensen**, DDS, MSD, PhD and **Rella P. Christensen**, RDH, PhD, world renowned leaders in dental product research and education, who welcomed the ALSC's mission: "Peter, we congratulate you on starting a laser study club. It is greatly needed, and you are the man to do it." Other Honorary Members of the ALSC are **Charles M. Cobb**, DDS, MS, PhD, Professor Emeritus, Department of Periodontics, School of Dentistry, University of Missouri-Kansas City; and **C. Kumar N. Patel**, PhD, MS, the Inventor of the CO<sub>2</sub> Laser; Recipient of National Medal of Science (1996); Member of US National Inventors Hall of Fame 2012; Professor Emeritus, UCLA. The ALSC is proud to have helped many dentists and surgeons.

**SEE WHAT OTHER SELLERS ARE SAYING ABOUT N/L TRANSITIONS-** I interviewed multiple brokers for the sale of my dental practice. Ellen Dorner, exceeded my financial and professional expectations and was optimistic and realistic about the entire transition process. She was focused, managed the process well, and achieved an excellent outcome. The final sale was easier and faster than I was led to believe by other brokers. I thank Ellen for making this a reality. **Stanley B. Foxman, DDS – Rockville, MD** For more information, contact Ellen Dorner – 410-616-2042 – or [edorner@nltransitions.com](mailto:edorner@nltransitions.com).
