Our course for the dental assistant focuses primarily on the dental assistant and his/her advancement. The goal is to prepare the assistant to be test ready for the DANB Expanded Functions General Exam. It is our responsibility to review didactic material while the doctor/assistant review the clinical material during the course of the office's daily routine. A positive interaction will advance the assistant while working, and the office can benefit from the increased ability of the assistant as he/she accomplishes more complex tasks as outlined by the dental law. We feel this mentor type environment fosters a positive working environment for both the doctor and assistant while accomplishing continuing education.

The formal lectures and in-office clinical experience combine the dynamics required for review and the setting to expose the assistant to materials required for licensure. The course requirements are attendance, competency sheets, quizzes and examinations. This 12 week course should be of interest to the doctor and assistant to keep the office productive, dynamic, and cooperative.
