## **President's Message**

Greetings colleagues. I want to thank each and every one of you for taking time out of your busy schedules to be a member and participate in organized dentistry. If you have not yet renewed your membership, please take this opportunity to do so – the ADA now offers convenient monthly and quarterly dues payment options.

As we usher in this new year, we are well situated to build upon our legislative successes of 2022 to fight for dentistry and protect the profession. Over the past year, we have delivered real, tangible value through our advocacy that affects every dentist in Maryland. From delivering our Oral Health Task Force Report to the Maryland General Assembly, to ensuring operating room access for pediatric and special needs patients, to passing legislation establishing Expanded Function Dental Assistants, as well as an Adult Dental Medicaid benefit, we have been working to break down barriers to care and provide options to increase practice efficiency and deliver more high-quality care to more patients.

Advocacy will be critical this year, as newly elected officials begin their terms in the Maryland General Assembly. Many of these legislators are in newly created districts or districts with boundaries that have shifted due to the recent redistricting. It will be important for Maryland dentists to meet with delegates and senators from all 47 legislative districts to introduce ourselves, and discuss the issues that are important to our profession.

To that end, I encourage all SMDS members to join for Dentist Day in Annapolis on Wednesday, February 15, to advocate for and against legislation affecting dentistry. MSDA makes the process easy and stress free by providing pre-Dentist Day webinars to go over the issues, as well as resources, background materials, talking points, position papers and leave behinds. Members can register at the MSDA website. I hope to see a strong SMDS contingent at Dentist Day!

Finally, as we move out of the era of COVID, I am excited to announce that SMDS will be resuming our in-person General Membership Meetings in April. More details will be forthcoming, but I would like to take this opportunity to recognize our Executive Director, Val Fridley and our Trustee Dr. Charlie Doring for the hard work they have put in to make this happen. I look forward to seeing everyone in person, in April!

As always, if you have any questions or concerns, or would like to get involved in a leadership capacity (either large or small), please do not hesitate to call or text me at (240)-599-6050.

Respectfully,  
Steven G. Feldman, DDS  
President SMDS

The ORACLE is published eight times a year by the Southern Maryland Dental Society, 4920 Niagara Road, Suite 306, College Park MD and sent to all members of the Society.

The SMDS will publish signed articles relating to all phases of dentistry (space permitting), but assumes no responsibility for opinions expressed by the contributors.

Acceptance of advertising in no way constitutes professional approval or endorsement.

Deadlines for all materials is the 1st of the month preceding the issue. Publishing dates are September, October, November, December, January, February, March, May/June.

## **Editors Letter**

Dear friends,

Happy New Year! 2023 is upon us, take a moment and breath. This is a perfect time to establish a game plan for the year ahead. It's not too late! I read a great article from the Washington Post on 13 tips to make your job less stressful this year. My top 3 take aways were

1. Reestablish boundaries for better work life balance
2. Reconnect with people
3. Get a head start –take 15 minutes once a week to create a priority list for work and home

We have come so far. Make this year count. I look forward to seeing everyone at the next SMDS Live Webinar on February 6th. Don't forget to sign up for Dentist Day on February 15 in Annapolis and ADA Lobby Day on March 5th in Washington.

Cheers,

Halima Karim, DDS, FAGD

Clear your calendars for Feb. 15 and join us once again at Governor Calvert House for Dentist Day in Annapolis 2023. We look forward every year to this convening of colleagues as we descend upon Annapolis and the Maryland State House to advocate for and against legislation that impacts dentistry.

While getting to know our elected officials is important every day of the year, Dentist Day is an important culminating event as dentists meet with dozens of lawmakers over the course of the morning.

The MSDA makes the process as easy as possible and will provide you with the resources and information you need to be successful, including talking points, background material, supporting documents, FAQs, and position papers. We will also continue with our pre-Dentist Day webinars to help educate all our participants on the process, the ins and outs of Annapolis, as well as getting into the details of priority pieces of legislation. The first webinar will be Jan. 26, to help understand the general logistics of Dentist Day. The second webinar on Feb. 13, will go over the latest legislation and additional details about our own priorities

This year is critical as newly elected officials, several in newly created districts in both Montgomery and Prince George's counties, begin their terms in the General Assembly. MSDA member participation now, and on Dentist Day, is a must for us to be truly effective. If you have questions, please don't hesitate to reach out to the MSDA Advocacy Team at [advocacy@msda.com](mailto:advocacy@msda.com).

We hope you will join us on Feb. 15! Sign up here: <https://web.cvent.com/event/06dc1974->

**1 Day  
Hands-On Course  
8 CE Hours**

## Facial Esthetics Training Course: Botox and Dermal Fillers

**AGD Codes  
780, 200**

### When

**February 25, 2023  
8:00 AM - 5:00 PM**

### Meet the Instructor

**Kevin R.  
Doring  
DDS,  
MAGD**

Dr. Kevin Doring  
is a graduate of  
the Johns  
Hopkins

University and earned his D.D.S. degree at the University of Maryland School of Dentistry. He then completed a general practice and anesthesia residency at the Charleston Area Medical Center. He holds Mastership in the Academy of General Dentistry, is a Fellow in the American College of Dentists, the International College of Dentists, the Pierre Fauchard Academy, and the International College of Oral Implantologists. Dr. Doring has been published in numerous dental journals and has lectured throughout the U.S. and internationally. He currently maintains a comprehensive general dental private practice in Edgewater, Maryland.

**College Park, MD (near Washington, DC)**  
4920 Niagara Road Suite 306, College Park, MD 20740

### Course synopsis

This one day course is designed for all dentists who wish to consider incorporating cosmetic facial enhancement treatments into their practices. The course will include 4 hours of lecture and 4 hours of participation credit for a total of 8 hours of continuing education. The latest cosmetic enhancement techniques utilizing Botox and Juvederm dermal fillers will be discussed and demonstrated. Participants will have the opportunity to perform these techniques on their own live patients.

Topics covered will include:

- The science of Botox and Dermal Filler treatments
- Review of facial anatomy
- Processes of aging and their effects on facial appearance
- Indications and contraindications of treatments
- Informed consent and legal considerations
- State Board guidelines
- Malpractice Insurance and your protection
- Incorporating cosmetic facial therapies into your practice
- Marketing cosmetic procedures

### Course schedule

8:00 - 8:30	am	Breakfast and registration
8:30 - 10:15	am	Theory and practice of Botox therapy
10:15 - 10:30	am	Break
10:30 - 12:00	pm	Hands on Botox exercises
12:00 - 1:00	pm	Lunch
1:00 - 2:45	pm	Theory and practice of dermal fillers
2:45 - 3:00	pm	Break
3:00 - 5:00	pm	Hands on Juvederm dermal filler exercises

**Participants are encouraged to bring patients on whom Botox/Juvederm procedures will be performed during the hands on portions of the course. Botox and Juvederm products will be available for purchase to use at the course.**

### Tuition

SMDS Members:	\$895	Non SMDS members:	\$995
Residents:	\$395	Staff/Patient:	\$225

EDUCATION

## The Southern Maryland Dental Society Presents

# Pediatric Tongue- and Lip-Ties and Laser Frenectomies

## 2-Day Hands-On Course - 15 CEUs

**WHERE:** 4920 Niagara Rd, Suite 306, College Park, MD 20740

**WHEN:** March 18-19, 2023 (Sat. & Sun.) • 8:00 am - 4:30 pm

### Meet the Faculty

#### Brynn Leroux, DDS

Dr. Leroux is a graduate of Louisiana State University School of Dentistry and was ranked 2nd in her graduating class. She completed a residency in Pediatric Dentistry at the Medical University of South Carolina, acting as Chief Resident. Dr. Leroux graduated as Valedictorian from Catholic High School of Pointe Coupee and continued on to study Biological Sciences at LSU in Baton Rouge. Dr. Leroux is a partner in Associates in Pediatric Dentistry, a group practice with 4 locations serving the Greater Baton Rouge area. She is a Board Certified Pediatric Dentist of the American Board of Pediatric Dentistry. She is an active member of numerous dental organizations and societies, including the Greater Baton Rouge Dental Association, Louisiana Dental Association, American Dental Association, Southwestern Society of Pediatric Dentistry, American Academy of Pediatric Dentistry, OKU National Dental Society, C.E. Kells Honorary Society, and Pierre Fauchard Honor Society.

#### Andrew Horng, DDS

Dr. Horng is a Diplomate of the American Board of Pediatric Dentistry and a Fellow of the American Academy of Pediatric Dentistry. He has been a clinical instructor at the University of Maryland School of Dentistry, Division of Pediatric Dentistry since 2005. Dr. Horng maintains a private practice in Rockville, MD. He is an active member of the American Dental Association and is a past-president of the Southern Maryland Dental Society. Currently Dr. Horng serves as the continuing education director of the SMDS.

#### Catherine Watson Genna, BS, IBCLC

Catherine Watson Genna has been an IBCLC in private practice in NYC since 1992. She has a special interest in the anatomical, genetic and neurological influences on infant sucking skills, and writes and speaks internationally on these topics. Her research investigates the biomechanics of the lactating nipple; analyzing infant sucking via ultrasound and studying suck-swallow rhythms using cervical auscultation. She is the author of *Supporting Sucking Skills in Breastfeeding Infants* (Jones and Bartlett Learning, 2008, 2013, 2017) and *Selecting and Using Breastfeeding Tools* (Hale Publishing, 2009; Praeger Press, 2016) and served as the founding Associate Editor of the USLCA Journal of Clinical Lactation.

Complete biographies can be found at [alsc.club/instructors](http://alsc.club/instructors)

### Tuition

**SMDS Members:** \$945

**Residents:** \$500

**Non-SMDS Members:** \$1,175

**Staff/IBCLC:** \$350

### Registration

**Call (301) 345-4196**

**Email [Valerie@smdsdentists.org](mailto:Valerie@smdsdentists.org)**

**Introduction:** Enhance your understanding of the issues of pediatric laser dentistry, including tongue-ties and lip-ties! As many as 5 percent of all babies born in the US have tongue-ties significant enough to cause breastfeeding difficulties. Affected babies often fail to thrive and can be erroneously labeled as "lazy nursers" or "stubborn feeders".

A good surgical laser for cutting soft tissue must be able to vaporize soft tissue, while at the same time efficiently coagulating surgical margins. Not all laser wavelengths are suitable to comply with both requirements. This course focuses on the practical aspects of soft tissue laser surgery and the fundamental processes involved in the laser-tissue interaction; it helps attendees learn how deep the laser beam cuts and how deep the coagulation and hemostasis extend into the surgical margins. Our **hands-on participation lab** is designed to train attendees on what surgical lasers can do safely and efficiently.

### Clinical Curriculum

- Background and significance of TOTS;
  - Diagnosis of pediatric tongue- and lip-ties;
  - Multi-disciplinary approach to treating pediatric tongue- and lip-ties;
  - Lactation support for the breastfeeding tongue-tied dyad;
  - Bodywork and alternative therapy for the tongue-tied baby;
  - Setting expectations with families and patients;
  - Current methods of clinical assessment, diagnosis and treatment of pediatric lingual and labial ties.
- Attendees will be able to:
- Describe infant sucking physiology and how tongue-ties impair infant suck;
  - Appropriately use reliable diagnostic criteria to screen babies and children for this condition;
  - Clearly express orthodontic-myofunctional connection;
  - Discuss how the soft tissues of the orofacial complex may lead to malocclusion, TMD, headaches, and other problems; and
  - List and define all consequences and benefits of using lasers to remove oral restrictions.

### Laser Curriculum:

The Laser Surgery and Safety Basic Knowledge Certification Curriculum for this Course has been developed by the American Laser Study Club (ALSC). The ALSC's curriculum overcomes the known limitations of many laser dentistry courses and includes the detailed physics of soft tissue ablation and coagulation with laser and hot tip (non-laser) devices. Laser hands-on wet lab on tissue samples will include laser safety instructions, frenectomy simulations, and other surgical laser procedure demonstrations. Laser instructions will be assisted by the guest speaker Peter Vitruk, PhD, MInstP, CPhys, a laser physicist who founded the American Laser Study Club and LightScalpel Inc.

### Hands-On Participation Session:

**2 HOURS**

- Laser Safety
- Laser Surgical Technique Simulations
- Superficial Ablation
- Superficial Coagulation
- Shallow Incisions
- Deep Incisions
- Practicing Surgical Techniques on a Pig Jaw

### Course Certificates:

Course participants, who successfully complete the examination, will be awarded a **LASER SAFETY basic knowledge CERTIFICATE** from the Board of Laser Safety of the Laser Institute of America (DISCOUNTED cost for the ALSC members), as well as a Laser Dentistry and Laser Surgery Basic Knowledge and Hands-On participation Wetlab **CERTIFICATE** from the American Laser Study Club (FREE for the course participants).

**About the ALSC:** The American Laser Study Club (ALSC - [www.AmericanLaserStudyClub.com](http://www.AmericanLaserStudyClub.com)) was founded to promote science-based laser dentistry, surgery, and safety education. The ALSC is proud of its curriculum and its distinguished membership, including our honorary members **Gordon J. Christensen, DDS, MSD, PhD** and **Rella P. Christensen, RDH, PhD**, world-renowned leaders in dental product research and education, who welcomed the ALSC's mission: "Peter, we congratulate you on starting a laser study club. It is greatly needed, and you are the man to do it." Other Honorary Members of the ALSC are **Charles M. Cobb, DDS, MS, PhD**, Professor Emeritus, Department of Periodontics, School of Dentistry, University of Missouri-Kansas City; and **C. Kumar N. Patel, PhD, MS**, the inventor of the CO<sub>2</sub> Laser; Recipient of National Medal of Science (1996); Member of US National Inventors Hall of Fame 2012; Professor Emeritus, UCLA. The ALSC is proud to have helped many dentists and surgeons.

## ***Guardian Disability Insurance Discount for Maryland State Dental Association Members!***

R.K. Tongue Co. has partnered with the Guardian Life Insurance Company to offer Maryland State Dental Association (MSDA) members a **10% discount** on individually owned disability income insurance.

Guardian is the leading provider of personally owned disability policies for dentists and has been the market leader for several decades.

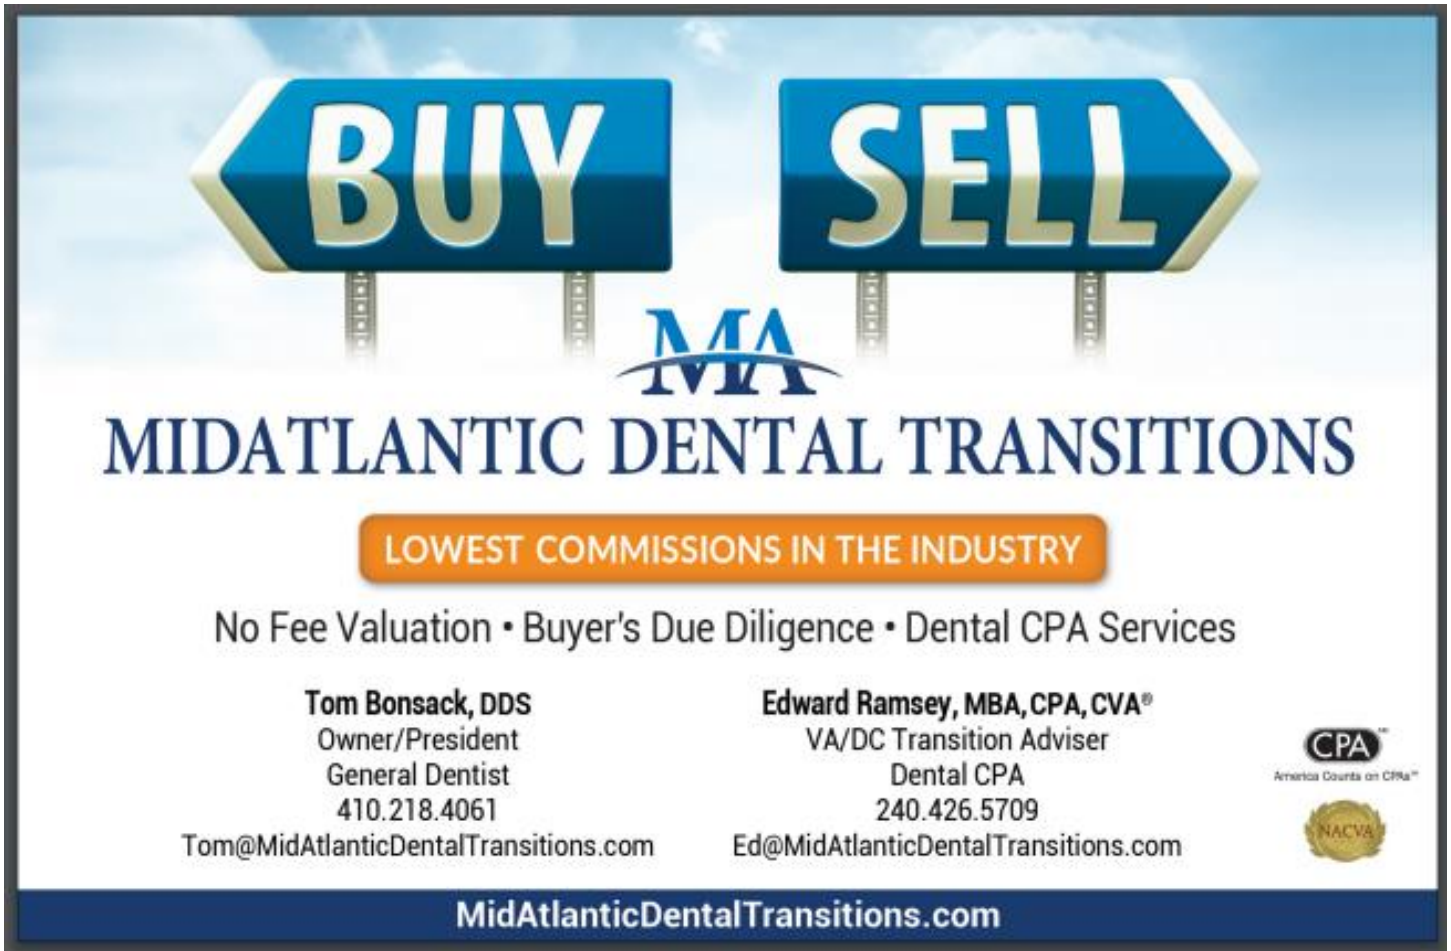

### **Why Guardian Disability Insurance for Dentists?**

- True Own-Occupation Definition of Total Disability
- Enhanced Partial Disability Benefits that delivers more benefits sooner and for a longer duration than most in the industry.
- Provides industry-leading income protection in the event you become too sick or injured to work

To see how much coverage you qualify for and to obtain an instant quote, please visit **[www.disabilityquotes.com/msda](http://www.disabilityquotes.com/msda)**.

## The Classifieds

The advertisement features a blue sky background with two large, 3D blue signs on poles. The left sign is a left-pointing arrow with the word 'BUY' in white, and the right sign is a right-pointing arrow with the word 'SELL' in white. Below the signs is the 'MA' logo in blue. The company name 'MIDATLANTIC DENTAL TRANSITIONS' is written in a large, blue, serif font. Below this is an orange button with the text 'LOWEST COMMISSIONS IN THE INDUSTRY' in white. Further down, the text 'No Fee Valuation • Buyer's Due Diligence • Dental CPA Services' is displayed. Two columns of contact information follow, each with a name, title, phone number, and email address. On the right side, there are two circular logos: 'CPA America Counts on CPAs' and 'NACVA'. A dark blue footer bar at the bottom contains the website 'MidAtlanticDentalTransitions.com' in white.
